THE BRITISH COLONIST.

Monday Morning, May 17, 1869.

ENGLISH POLITICS have an ominous quiet about them just now, and members of Parliaments in their out-of-door speeches, avoid as far as possible dwelling upon any of the great questions of the day. Sufficient however, oozes out to lead a close observer to the conclusion that affairs on the continent are creating an uneasy feeling in England. Mr. Lowe with his ingenious budget is evidently clearing the decks for a possible increase in the income tax, and there seems to be a tacit understanding that events might occur requiring the excercise of that stern partriotism for which Englishmen are pre-eminently remarkable when the critical moment arrives. Lord Stanley has been receiving a scolding for speaking too plainly about poor little Belgium, forshadowing the possible abandonment of that kingdom when France makes up her mind to swallow it up. Perhaps his Lordship was a little premature, but there is nothing like preparing the public for "coming events." It is stated that voluntary enlistment is not sufficient to fill the ranks in the army, a rather noteworthy opinion which we have not heard expressed for a very long period; if the impression was not very strongly marked on the minds of those expressing themselves so, that an urgent need may soon occur for the rapid enrollment of soldiers, such an idea in a non-military country like England would be treated as absurd. It is vaguely hinted that England is not now so safe as she was formerly behind her wooden walls, since the introduction of steam, and armour-plating on the ships, has neutralised her old advantage from the daring seamans ship of her jolly tars. The national feeling is undoubtedly leaving the point of weak subrvaiency, exhibited a short time ago, in the desire to accommodate English policy to suit foreign views. The tone of the press is more streightforward and manly; for instance, on the subject of the Alabama claims and matters pertaining to the United States; the language is certainly not favorable to any more trifling with that country, so that if General Grant or his Government desire a rupture they can have it. France is, for the first time in her history, in a state of ferment about her elections; hitherto it was so well understood that the Imperial nominees must go in, that people did not give themselves any trouble about the matter. Now, however, the reciprocity in fashions which exists between England and France by which English women adopt French fashions and Frenchmen English habits, has made parliamentary life in Paris the mode, hence there is a great probability that the opposition will have a large accession to its ranks, although it cannot under any circumstances do more than harass the Government. If there is any truth in omens, France is on the point of going to war, because all the semi-official press is intrusted to preach peace. Everything pertaining to military or naval affairs seems to be in the most efficient state. The Prussian papers are very industriously occupied in trying to throw cold water on the rumored alliance between France, Italy and Austria. They are proving conclusively, to their own satisfaction at least, that Italy must be a great loser in attaching herself to the Imperial cause, whereas by following the fortunes of the Prussians, she would, of course, be a considerable gainer. Unfortunately for Bismarck, these arguments are not likely to be effective in detaching the Italians from France. Austria is coaxed, jeered at and bullied by turns. She is praised for the liberal changes in her system of government; jeered at for remodeling her army, and threatened with the direst calamities if he allies herself to the traditional foe of the fatherland. Baron Beust is nevertheless taking every precaution to place the country in a condition to hold her own in case of any hostilities between Prussia and France. The Spanish Government is astonishing the world by its tenacity to life; torn as it is by so many factions holding views so much at variance, it is allowed to exist till one of the parties is sufficiently powerful to set the rest at defiance. The only subject on which there is any unanimity is the determination not to part with Cuba. Spain will never relax her grasp on the Island while she exists as a nation. The thirst for the acquisition of territory is as strong in the Russian mind to-day, as it was in the days of Peter and Catherine; and probably no part of the world is so much coveted by the Czar as the British Indian Empire. To reach the borders of that rich country, Russia has thrown away vast sums of money and numberless lives in making a number of worthless conquests at Bokhara and in the surrounding petty nationalities, and she is now close upon Herat. Of course the British Government is on the alert and doing all that is possible to counteract the wily Russian policy. India will yet form a great bone of contention.

The Velocipede Nuisance.

EDITOR BRITISH COLONIST:—I observe that you speak of the defective state of our sidewalks; but you fail to expose the cause of that defectiveness, which is attributable to the running of velocipedes over them. Five days ago I securely fastened with strong nails all the planks in front of my store. Since then the velocipedians have rolled over it frequently, and to-day there is scarcely a plank in the walk that does not need refastening. The experience of my neighbors is similar to my own.

Yours, truly,
ANTI-HOBB-YHORSE.

A Russian Tragedy—A Unique Murder Trial and its Denouement.

[St. Petersburg (March 6 th) correspondence of the Morning Post.]

We have just witnessed the denouement of a trial for murder, almost unique of its kind which has excited even more than the usual amount of morbid interest and curiosity. The details of the case are so striking in themselves and bear so singular a resemblance to those of De Quincey's famous masterpiece of horror, the Ratcliffe highway murders of 1812, whether as regards the artistic character of the leading features in the tragedy, the exterminating nature of the crime or the temporary impunity and ultimate detection of the criminal that it may be worth while to give a brief outline. In the Gusevoi Pereulok stands a quiet, comfortable house, inhabited in the Summer of 1857 by a Russian officer, a lady passing for his wife, a young servant girl and a boy of thirteen. To this house, on a fine Summer evening, comes a stout, middle-aged woman, Darya Solokoff by name, who has formerly been a nurse in the family—a commonplace-looking woman enough, but for her strangely restless eyes which appear to take in everything without looking straight at anything. Her tale is soon told; she has come in this morning from the country with butter and fresh eggs, which she has unluckily failed to dispose of; the afternoon train is already gone—will they give her shelter for the night? The master of the house assents and she curls herself up beside the kitchen stove and is soon asleep. Between two and three o'clock in the morning she rises cautiously, and gropes about for a box-iron which she remembers having observed on the dresser. It is still fresh from its work, as the user left it; but this night there is other work for it to do, which shall make it famous throughout the capital. The heads of the household are sleeping peacefully, when a stealthily tread glides into the room; and by the dim light of the night lamp, a shadowy hand is seen to rise and fall with a dull thud, like a tap on a padded door—a very faint noise, such as would hardly break the rest of a child, yet each sound is the knell of a human life. So far all is well; but two witnesses now remain—a single cry from either and all is lost. One swift, sure stroke changes the quiet sleep of the young girl into a deeper slumber; and now only the boy is left. As the Evil Presence bends over him he turns and moans in his sleep, as if striving to rise; but before he can wake the blow falls which 'makes all sure.' Another blow brains the pet spaniel that sleeps at the foot of the bed; and the little playmates lie dead side by side, while the destroyer hurries to her booty. Several drawers and an escritoir are forced and various articles of jewelry, etc., seized; the bank notes she rejects, having coolness to reflect, even in that moment of deadly peril, that they may perhaps fix suspicion on her; all else is rifled. In the gray of the early morning she glides away through the deserted streets and is soon in the train which will carry her home, chatting pleasantly with the two or three market people who are her companions.

For thirteen months the bloodhounds of the law course upon an uncertain scent; for thirteen months the murderer lives peacefully in her quiet village home, undisturbed by remorse for the past or apprehension for the future. At length, the slightest of all possible clues—merely the coincidence of a Christian name found on some article of clothing dropped in her flight—perseveringly followed up through weeks and months of wearisome investigation, brings down the long impending retribution. She is arrested, confesses her crime, denies again, and remains stubborn in her denial. All efforts to shake her firmness prove abortive, the possession of the stolen articles is insufficient circumstantial evidence in Russia; living witness against her there is none, as she has taken care to insure; finally, she is sentenced to 12 years' penal servitude—Siberia engulfs her and nothing is left save her portrait and history.

Horrible Murders at White Pine.

TREASURE CITY, May 5—The bodies of two miners, named Martin Granfield and Michael McCullough, who were murdered on Monday night, were found yesterday morning, two miles west of Hamilton, but a few yards from the cabin of the latter. They were literally hacked in pieces, thrown on a log fire and partly consumed. Granfield's body had four bullet wounds. The murderer is supposed to be a partner and joint occupant of McCullough's cabin, named John Karr, who has not been seen since the night of the murder. The object is supposed to be plunder. Officers are hunting for Karr. Both of the murdered men formerly lived at Gold Hill.

THE notorious Duc de Choiseul Praslin, who, during the reign of Louis Phillippe, was convicted of the murder of his wife, and sentenced to death, but believed to have committed suicide, before he could be taken to the guillotine, is said to be still alive and in needy circumstances in London. The Paris Police, it is added, has been aware of his whereabouns for many years.

ROCHFORT says, in No. 39 of *La Lanterne* that he has no more faithful subscriber and reader than the Emperor Napoleon. In the the same number, in noticing that the Empress Eugenie has the mumps, he is malicious enough to advise her majesty to cure the disease by touching Queen Isabella. The Parisian people know what Rochfort means.

CHEAP SHAVING.—Having recovered his health, Fred Payne's shop is again open to the public. Prices as before. *

Cariboo News.

For the week ending May 1st, the following were the principal yields on Wil-liam Creek: Barker co. washed last week 103 oz.; Caledonian co. 130 oz; Cariboo co, 45 oz; Canadian co. 30 oz. The claims below Barkerville have all had to stop work till the drain gets clear. For the three days ending May 4th, the Barker washed up 35 oz, and the Canadian 45 oz.

On Stout's Gulch, the Coombs co washed up for three days 134 oz., and the Taftvale 108 oz.

On Mosquito Creek, the Minnehaha washed for the week 125 oz, and the Tab 45 oz.

On Lightning Creek, a prospect of 4 oz and $12 was obtained from the Dunbar claim, out of dirt packed down to the creek in flour sacks.

On Dragon Creek, a company are at work running a tunnel to a shaft sunk last fall, and from which they obtained a prospect of $24 on the bottom. They are now in 400 feet, and expect to reach bed-rock in about another hundred feet.

The *Sentinel* of 5th May says: From arrivals from Lightning Creek yesterday we learn that the prospects in the Dunbar claim look better than before. Between three and four dollars to the pan have been frequently obtained. This information is from miners who have staked off claims near to the Dunbar ground.

Last evening a rumor spread about Barkerville to the effect that a prospect of $5 to the pan had been obtained, according to some statements on Grouse creek, and according to others on Antler creek, or on the divide of Antler and Grouse.

A rich prospect had been struck in Conklins Gulch, causing a good deal of excitement.

All apprehensions regarding the safety of the bedrock drain on William creek were at an end.

A second prospecting party started out from Quesnellmouth on the 25th ult. for Hixon and Terry creeks, where they intend to prospect during the summer and fall. The Enterprise has been undertaken entirely by private parties, Messrs Brown and Gillis being the principal promoters.

William Giles, a native of Missouri, U. S., aged 35 years, died in the hospital on the 3rd. Deceased was a pioneer miner, having come to the colony in 1858. He was familiarly known as "Jack-of-Clubs," and the discoverer of the creek so named

The funeral of Stobo, who was killed in the Caledonia claim took place on the first. It was very largely attended, and was conducted with Masonic ceremony. The Rev. Mr Derrick conducted the religious services.

MR. KENNEDY, THE SCOTCH VOCALIST.—We have been permitted to copy the following extract from a letter. The writer appears to have gone into ecstacies over the rare musical treat. Hear her:—"Kennedy's first entertainment came off on Monday evening last. It consisted of singing and humorous stories by him, his little daughter acting as pianist. There was a fine audience present, composed largely of our Scotch population, and certainly lovers of Scotia's songs could never have a greater treat Kennedy is a magnificent looking man on the stage, and has a face of splendid expression. He is inimitable in humorous sketches, and as to his singing, it is simply impossible for me to tell you how glorious it is. His voice, while very powerful, is full of the sweetest tones. I don't believe that anyone can equal his "McGregor's Gathering." It is far superior to Henry Squires'. He took the house by storm in this, as he did with his "Scots wha hae wi' Wallace Bled." I never, never heard these pieces sung so gloriously! "Bonnie Doon" was sung most touchingly, and "Jock o' Hazeldean" was never so sweet to me, while "The Land o' the Leal" brought tears to every eye. Miss Kennedy—a bright lassie, as sweet and bonnie as a fresh flower from the mountains—plays the piano very gracefully. The finale was dear "Auld Lang Syne," in which the audience arose and joined in the chorus. It was perfectly grand; everyone was so pleased and so enthusiastic. I observed two or three of our professional singers present who sang with all their might, and I believe that everybody in the hall let their voices out. Should Kennedy come up your way, just think of me in every song he sings, and believe my heart is with you."

RESIGNED.—The public will be sorry to learn that Mr. John Henderson, for three years past local manager of the Western Union Telegraph Company's business in this city, has resigned his position with the intention of returning to California. Mr. Henderson'sdeparture will be much regretted by all who in a business or social capacity have been brought in contact with him.

AMONG the passengers by the steamer Enterprise from New Westminster on Saturday, was Mr. H. Shirley Blunt, late manager of the Cariboo branch of the Bank of British Columbia, who is bound home. Mr Blunt speaks encouragingly of the gold-mining prospects, and is of opinion that the William creek Bed-rock drain is out of danger.

THE schooner Fanny sailed yesterday morning at 8 o'clock for Sitka.

The Collegiate Eleven vs. The Indignation Eleven.

The following challenge to play a game of cricket was handed to Mr. Wm. Wilson, on Saturday last. We have not learned whether the challenged eleven decided to play or not;

COLLEGIATE SCHOOL, May 14th, 1869.

Wm. Wilson, Esq., Dear Sir:—I am requested by the boys of the Collegiate School Cricket Club to challenge the Indignationists, (whom I believe you represent) to play nine of our club, together with Messrs. Guerra and Tye, at Cricket on Beacon Hill on Saturday the 22d May. Having had an opportunity of witnessing your late contest with the British Columbian Eleven we have become anxious to test our skill with that of your eleven.

Awaiting an early reply
I remain,
J. TOLMIE, Secretary.

BELLINGHAM BAY.—By a late arrival we have news from this section. Mr Meyer, Superintendent of the Bellingham Bay coal mine, has had a ditch cut from Whatcom creek to let water into the mine and extinguish the fire, which would take about three weeks. The water was to be let in gradually, for fear of starting the timbers in the slope. It will take about a month to pump the water out. It was probable that a portion of the hands would be employed in blasting at the new wharf. There was coal enough at the shutes to keep the Company's ships going. Mr. Meyer was prosecuting the new works with his usual energy and skill, and it was calculated that they would be completed in about two months' time. In the political world the minds of the people were occupied with the approaching elections for Whatcom county. Hon. Edward Eldridge is the Republican, and Hon. Mr. Roeder the Democratic, candidate. The friends of temperance will be glad to learn that a Lodge of Good Templars has been in existence at Sehome for upwards of a year. The greater portion of the miners and employees of the Company were members of the Lodge.

THE APPROACHING ECLIPSE.—On the 7th of next August, about noon, there will be visable at the far north-western portion of our continent, namely, in Alaska, one of those rare celestial phenomenas—a total eclipse of the sun. This remarkable appearance will be seen through a breadth of about one hundred miles, and will travel, as we may say, across our country, appearing at different places at different apparent times until it will be last viewed from about Beaufort, North Carolina, at sunset. When during the progress of this phenomenon, the sun's disk is entirely covered by the body of the moon, and all direct light is thus cut off from the eyes of observers, they will be able to see (what on like occasions has been always before visible) flame or cloud-like portions of rose-colored light projecting from the sun's edge far out into space. During the last total eclipse, visible in India and Arabia on the eighteenth of last August, a tower-like mass of such cloud was seen (and photographed), which reached full seventy thousand miles out from the sun into the surrounding expanse.

LOCAL BREVITIES.—Jacobs, of the St George Hotel, is the fortunate owner of a hen that on Saturday laid an egg 7 inches in diameter by 2 in circumference. Biddy seemed none the worse for her eggstraordinary eggsertions in setting a good eggsample for her sisters to follow....The town lots of Hastings Burrard Inlet, will be sold on the 10th of June at public auction....Mr. M. Michaud has been appointed postmaster at Burrard Inlet....The steamer Sir James Douglas towed the ship Gen. Cobb down from Sayward's on Saturday; and the Isabel, on the same day, towed down the bark Regent from Moody's. Both vessels are bound for San Francisco. The Regent has lumber and the General Cobb piles....The G. S. Wright, S.S., sailed on Saturday for Portland, with a full freight of coal and a few passengers.

THE base ball game between the Olympic and Ranier Nines, will take place on the 25th inst, at Beacon Hill. The Ranier Club will reach here early on the morning of Monday the 24th inst. A large number of visitors from Puget Sound will visit Victoria at the same time to take part in the celebration, and will remain over until noon of Wednesday.

AMONGST the passengers who sailed on the Geo. S. Wright for Portland, on Saturday, was Mr. M. Munro, the contractor. Having completed his work on the Pacific Railroad, where he has been engaged for the last two years, he goes down to commence a new contract on the Oregon Central.

THE REGATTA.—The programme of the annual regatta appears in this issue of our paper. The experienced hands in which the arrangements are vested, is a guarantee of success. The committee will meet at the Bee Hive at 8:30 o'clock to-night.

THE steamer Emily Harris returned from Burrard Inlet yesterday, whether she had been a logging. She reports the usual number of vessels loading at the mills, and the Saga ready for sea.

FOR METLAKATLAH ETC.—His Excellency the Governor will sail for Metlakatlah and other ports this afternoon, with a view to inquire into the state of the natives and the mission.

DIRECT STEAMER.—The steamship Active will sail from San Francisco for Victoria direct on Thursday noon.

THE Court of Assize and General Gaol Delivery will meet on the 27th inst., at 11 o'clock.

The tug Isabel started for Burrard Inlet on Saturday evening to tow the bark Saga down from the B. C. & V. I. mills.

MONEY has advanced to 2 per cent per month at San Francisco. White Pine again.

By Electric Telegraph.

Secretary Boutwell says he does not intend to put the Bonds purchased to-day again in the market.

NEW YORK, May 12—There was a meeting of Californians at the Astor House to celebrate the completion of the Pacific Railroad. Senator Nye presided.

The *Tribune's* Atlanta special says that large numbers of Republicans now in the city believe death is certain if they should go home. Among them are many members of the Legislature.

CINCINNATI, May 12—The National encampments of the Grand Army of the Republic met to-day. General Logan delivered an address.

CHICAGO, May 13—The Commissions of San Francisco Mint appointees—Munson, Cochrane and Harmistead, will probably be issued within a few days. Cheeseman's chances as Sub: Treasurer are good, being warmly sustained by Spinner and Delano, while Boutwell is favorable.

Reports of the contemplated reduction of mail service on the Pacific are denied by the Postal Department.

INDIANOPOLIS, May 13—All the Democratic members of the House of Representatives, except two, have resigned, again leaving the House without a quorum. The Governor ruled that the Senate had no official notice of resignation, and declared the amendment ratified; 27 ayes to 1 no. It is thought the Republican members of the House will vote on the amendment to-morrow, and then adjourn.

SCRANTON, PA., May 13—Sixteen hundred men employed in the mines at Pittsburg, suspended work this morning.

HARRISBURGH, May 13—Judge Pearson, to-day, decided that Bonds at par held by residents of other States are subject to taxation.

NEW YORK, May 13—The *Herald's* cable special says Reverdy Johnson telegraphed to the Secretary of State informing him of his formal withdrawal from office. After giving some detailed accounts of the friendly farewell and reception by the Queen, Johnson says—Thus terminates a mission which has been conducted on my part with zeal; which has fulfiled to the letter the instructions of my Government, and aimed to protect the rights, preserve the honor and promote the interest of my country.

The *Tribune's* Washington special says—Creswell has reconstructed the whole mail service. He has divided the country into six divisions; these are subdivided into districts, each division has a principal officer styled Assistant Superintendent of the Railroad Mail Service, who is responsible for Postal affairs. The Superintendent of the Division reports directly to the Post Master General.

Each District has a Post Office Inspector, each division a special agent to investigate mail depredations; and three special agents at large. The sixth division includes Kansas, Texas, California, Oregon, Nevada and the Territories. Among the Inspectors are James B. Underwood, Oregon, and Alfred Barston, Cal.

The triple alliance story has been effectually exploded. It has transpired that Revery Johnson literally executed the instructions of the State Department in negotiating the Alabama treaty. The Press and Seward thank him for his success in negotiating on the basis submitted by the Government.

CHICAGO, May 14—The Austrian papers say that the Sultan proposes to send a delegation to visit the Pacific Railroad, with a view of introducing the American railroad system into Turkey.

Europe.

LONDON, May 12—There is much agitation in Paris, in consequence of the general election. Four public meetings have been dispersed by the police.

MADRID, May 12—Dispatches from Lisbon show that public discontent in Portugal has culminated in serious disorder in Lisbon. A plot against the Government has been discovered. Conspirators had been tampering with the garrison at Lisbon.

MADRID, May 13—In the Cortes to-day an amendment to the Constitution was introduced to the effect that all powers emanate from the nation, and that all persons to whom they are entrusted must be elected, and be held responsible to the people. Prim approved the provisions for a regency under Serrano.

LONDON, May 13—The *Times* has an article on the rejected Alabama treaty, asserting that the British Government, in submitting to arbitration in the question at all, conceded everything demanded or expected by the American people, and everything it was possible to concede.

Later advices from Teheran, Persia, report that the authorities made about 50 arrests of participators in the recent religious riots.

LONDON, May 13.—In the House of Lords, Earl Russell inquired what plan the goverment proposed to adopt for putting a stop to the outrages which lately have been so frequent in Ireland. He deprecated the land scheme of Mr. Bright as likely to unsettle the Irish people. He called upon the government to discountenance all visionary laws and to state clearly what it intended to do.

Earl Granville, Colonial Secretary, regretted the continual recurrence of the topic, and said the government was not prepared to state its policy. He was not authorized to give an opinion of the Bright plan.

Derby urged for an exposition of the ministerial policy, and a disavowal of Bright's opinions. The reticence of the government was dangerous to the best interests of Ireland. After a sharp passage between Lords Derby and Kimberly, the House of Lords adjourned until the 27th May.

Canadian Mail Summary.

OTTAWA, April 16.—It is said that the policy of the Government with regard to the North West Territory will be to organize a Territorial Government with its seat at Red River, giving it for the present only local and municipal machinery and representation in the House of Commons. As the population increases, a provisional government will be organized, and a certain portion of the territory allowed to come into the Union as a Province. It is expected that two or three hundred thousand dollars will be voted this session toward the completion of the road from Fort William to Red River.

OTTAWA, Monday, April 12.—Hon. Mr. McDougall, C.B., arrived here on Saturday evening.

During the stay of Hon. Mr. Shea here he has had several very satisfactory interviews with the Government concerning the admission of Newfoundland into the Union. Mr. Shea has confined his attention mainly to financial matters. Mr. Shea's proceedings in relation to the union of his Province have been of a preliminary and informal character, but nevertheless they will pave the way for speedier settlement of the terms of union when the official delegation will arrive here from Newfoundland, on the prorogation of the Legislature of that Province.

Parliament was opened on the 12th. The Governor-General's speech contains nothing of interest to our readers beyond what they have already been apprised.

HALIFAX, April 12.—Mr. Annand publishes in the *Chronicle* a letter to the electors of Hants, replying to Mr. Howe; charging him with having played false with the Repealers when in England, so much so that it was freely stated among British M. P.'s that the delegates did not want repeal.

Prince Edwards Island.

CHARLOTTETOWN, April 6.—Dowey was hanged about two to-day. About 1500 present. First and second time rope broke and he came to the ground. Third time was hauled up by the Sheriff and his assistant. He spoke very feelingly about three quarters of an hour. Came out very firmly on the scaffold and bowed to the assembly.

CURES AND COMFORT FOR THE BED-RIDDEN.

—BY—

Holloway's Ointment.

This wonderful Ointment acts like magic in relieving curing old sores, wounds, bad legs, ulcers and eruptions of the skin; when rubbed on the surface it penetrates and purifies each tissue on its passage, and exerne the most wholesome influence over the internal structurets It heals by cleansing all animal fluids with which it comes in contact, and thereby promotes a sound and permanent cure.

Gout and Rheumatism.

To sufferers from the racking pains of Rheumatism and Gout this ointment will prove invaluable. After fomentation with warm water the soothing action of this Ointment is most remarkable; it seems at once to lesson inflamation, ease pain, reduce the swelling, restore natural circulation, and expels the disease. For the above com plaints Holloway's Ointment and Pills are infallible spe.

Diptheria, Bronchitis, Sore Throats, Coughs and Colds

his class of diseases may be cured by well rubbing th Ointment, three times a day, upon the throat, chest and back of the patient. It will soon penetrate and give immediate relief. In all stages of Influenza, Colds and Bronchitis, this treatment may be followed with efficiency nd safety—indeed, it has never been known to fail.

All Varieties of Skin Diseases, Scrofula and Scurvy.

This Ointment is a certain cure for Ringworm, Scurvy Scrofula or King's Evil, and the most inveterate skin diseases to which the human race is subject. They cannot be treated with a safer or more speedy remedy than Holloway Ointment, assisted by his celebrated Pills, which act opowerfully on the constitution and so purify the blood that these disorders are completely eradica fed from the system, and alasting cure obtained

Dropsical Swellings.

Beware of this dangerous and stealthy complain which frequently creeps upon us by slight squeamishness or trifling jaundice, of which little or no notice is taken until the legs begin to swell. The cause of the evil must be looked for in the liver and stomach, therefore set to work earnestly by taking Holloway's famous Pills according to the printed instructions and rubbing the Ointment very effectively over the pit of the stomach and right side where those organs lie. Most dropsical cases will readily yield to the combined influence of the Ointment and Pills

Piles, Fistulas, and Internal Inflammation.

These complaints are most distressing to both body and mind, false delicacy concealing them from the know dge of the most intimate friends. Persons suffer for ears from Piles and similar complaints when they might se Holloway's Ointment with instant relief, and effect heir own cure without the annoyance of explaining their ailment to anyone

Disorders of the Kidneys, Stone and Gravel

Are immediately relieved and ultimately cured if this ntment be well rubbed twice a day, into the small of he back, over the regions of the kidneys to which it wil radually penetrate and in almost every case give imme iiate relief; but perseverance will be necessary to effec a to rough cure.

Both the Ointment and Pills should be used in the fo ing cases:—

Bad Legs,	Cancers,	Scalds,
Bad Breasts,	Contracted and Stiff Joints,	Sore Nipples,
Burns,	Elephantiasis,	Sore Throats,
Bunions	Fistulas,	Skin Diseases
Bite of Moschetos and Sand Flies,	Gout,	Scurvy,

TO THE UNFORTUNATE

NEW REMEDIES, NEW REMEDIES.

Dr Gibbon's Dispensary,

623 KEARNEY STREET, CORNER Commercial, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis, in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

Dr. Gibbon has the pleasure of announcing that he has returned to this State, after an absence of one year during which time he visited all the principal Hospitals of Europe, among them those of Dublin, London and Paris. The following celebrated Hospitals of London are among those visited by the Doctor: Guy's, High street, Borough; St. Bartholomew's, Smithfield, St. Luke's, Old street; St. Mary's, Camb. Place, Pad.; Lock, Harrow Road; University, Gower street; Westminster, Broad Sanctuary; Charing Cross, Agar street, Strand; London, Whitechapel Road; Royal Free, Gray's Inn Road; King's College, Portugal street

Dr. Gibbon has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.

Horrible Diseases.

How many thousands of persons, both male and female are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system. Look at their pallid, emaciated and disfigured faces, and their broken down constitutions, disqualifying them from the happiness of marriage or of the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible, life-destroying maladies—see that they are cared for, and cured before it be too late. Send them immediately to Dr. Gibbon, a physician who has made private diseases his especial study for years, who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those afflicted, or to those who are interested in the welfare of their frends, to be careful of the many pretended Doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful, and make strict inquiry, or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emission the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz.: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

MARRIED MEN.

Of those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief.

Dr Gibbon is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

Cured at Home.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr Gibbon stating case, symptoms, length of time the disease has continued, and have medicine promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use By enclosing $15 in currency or $10 in coin, in a registered letter through the Post office or through Wells Fargo & Co., a package of medicine will be forwarded by express to any part of the Pacific Coast.

Address Dr J. F. Gibbon, 623 Kearney street, corner Commercial, San Francisco.—Post office box 252.

☞ Private Entrance on Commercial Street ☜

Remember to put BOX 252 on the letter.

Consultations FREE.

Coughs, Colds, Rheumatism, Diarrhœa, Dysentery, and Fever.

THE "TIMES," OF INDIA, STATES "that the discovery of Dr. J. COLLIS BROWNE'S CHLORODYNE is a greater blessing to the human race than even the discovery of Vaccination." This remedy is invaluable in the above diseases, and is indispensable to Emigrants, Travellers, and Families, a few doses being generally sufficient.

DR. J. COLLIS BROWNE'S CHLORODYNE.—The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne.—See "Lancet," December 31, 1864.

DR. J. COLLIS BROWNE'S CHLORODYNE.—Extract from "Medical Times," January 12, 1866—"Is prescribed by scores of orthodox medical practitioners. Of course it would not be thus singularly popular did it not 'supply a want and fill a place.'"

DR. J. COLLIS BROWNE'S CHLORODYNE is the best and most certain remedy in Coughs, Colds, Asthma, Consumption, Neuralgia, Rheumatism, etc.

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay: "Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery. To it I fairly owe my restoration to health after eighteen months' severe suffering, and when all other medicines had failed."

It is necessary to warn the public against spurious imitations, which only bear the pirated name, and are deficient of the true properties of the only genuine, viz.: DR. J. COLLIS BROWNE'S, as was proved before Vice-Chancellor Sir W. P. Wood, in the Court of Chancery, in case Browne vs. Freeman, when the Vice-Chancellor stated that the story of Freeman being the Inventor was DELIBERATELY UNTRUE.

Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

Oakland, Ind., 6th June, 1859.

J. C. Ayer & Co. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from anything. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that anything you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully. Yours,

ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of *Dropsy*, which threatened to terminate fatally, by the persevering use of our Sarsaparilla, and also a dangerous *Malignant Erysipelas* by large doses of the same; says he cures the common *Eruptions* by it constantly.

Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan, of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a *Goitre*—a hideous swelling on the neck, which I had suffered from over two years."

Leucorrhœa or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channing, of New York City, writes: "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases* of the Scrofulous diathesis. I have cured many inveterate cases of Leucorrhœa by it, and some where the complaint was caused by *ulceration* of the *uterus*. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newbury, Ala., writes: "A dangerous *ovarian tumor* on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease.

New Orleans, 25th August, 1859.

Dr. J. C. Ayer: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of *Venereal and Mercurial Disease.* One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla steadily taken cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, G. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

Independence, Preston Co., Va., 6th July, 1859.

Dr. J. C. Ayer: Sir, I have been afflicted with a painful chronic *Rheumatism* for a long time, which baffled the skill of physicians, and stuck to me in spite of all the remedies I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks, and restored my general health so much that I am far better than before I was attacked. I think it a wonderful medicine. J. FREAM.

Jules Y. Getchell, of St. Louis, writes: "I have been afflicted for years with an *affection of the Liver*, which destroyed my health. I tried everything, and everything failed to relieve me; and I have been a broken-down man for some years from no other cause than *derangement of the Liver.* My beloved pastor, the Rev. Mr. Espy, advised me to try your Sarsaparilla, because he said he knew you, and anything you made was worth trying. By the blessing of God it has cured me, and has so purified my blood as to made a new man of me. I feel young again. The best that can be said of you is not half good enough."

Schirrus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but our space here will not admit them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia.

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. Few are the communities, or even families, among them who have not some personal experience of its effects—some living trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.

French Medicines,

PREPARED BY

GRIMAULT & CO.

Chemists to H.I.H. Prince Napoleon

PARIS.

These different medicines represent the most recent medical discoveries, founded on the principles of Chemistry and Therapeutics. They must not be confounded with secret or quack medicines, as their names sufficiently indicate their composition; a circumstance which has caused them to be appreciated and prescribed by the Faculty in the whole world. They widely differ from those numerous medicines advertised in the public papers as able to cure every possible disease, as they are applicable only to but a very few complaints. The most stringent laws exist in France with regard to the sale of medical preparations, and only those which have undergone an examination by the **Academy of Medicine** and have been proved efficacious, either in the hospitals or in the practice of the first medical men, are authorised by the Government. This fact must be a guarantee for the excellence of **Messrs. Grimault et Co.'s** Medicines.
